Who Is a Veteran?

Title 38 of the U.S. Code of Federal Regulations defines as:

“a person who served in the active military, naval, or air service and who was discharged or released under conditions other than dishonorable.”

This definition explains that any individual that completed a service for any branch of Armed Forces classifies as a Veteran as long as they were not dishonorably discharged. However, certain programs and benefits may have additional criteria for eligibility.

5 Tips For Veterans

1. Make copies of discharge papers and advise family members & caregivers where they can be found.
2. Obtain a County Veterans Identification Card.
3. Seek information directly from the service provider.
4. Not all Veterans are eligible for every benefit.
5. Unsure if you're eligible for benefits? Ask!
